1. Can you find the hidden meaning behind each of these ?

- (a) 
- (b) 
- (c) 
- (d) 
- (e) 
- (f) 
- (g) 

2. Marty Maxisux is a salesman for MegaSuck vacuum cleaners. He arrives at a house where a woman says "I will buy a vacuum cleaner if you can guess the age of my three children." "O.K. but I need a clue." Replies Marty.

"My three daughters ages multiply to give 36." "O.K. but I need another clue."

"My three daughters ages add to the house number next door." Marty has a look around and says. "I need another clue."

"I have one daughter at school and the twins stay home with me."

What are the ages of the children ?

3. The diagram below represents a paddock that is square in shape but with a quarter missing. The paddock has to be divided into four smaller paddocks each identical in size and shape. How can this be done ?
